AND INNOVATION POLICY STUDIES

RISIS Tool Demonstration Event:

The OpenAIRE Research Graph: an Open Access resource for research on research

Claudio Atzori, Miriam Baglioni, Alessia Bardi

October 26 2022

This project is funded by the European Union under Horizon2020 Research and Innovation Programme Grant Agreement n° 824091

Who are we

Claudio Atzori

Software & Data Engineer / Data
quality

Miriam Baglioni

Researcher / Data Quality

Alessia Bardi

Researcher / Product Manager of
the OpenAIRE Research Community
Dashboard (CONNECT)

Getting started

- Ensure you can enter the RISIS Lab Virtual Research Environment of the D4Science infrastructure

About

RISIS LAB

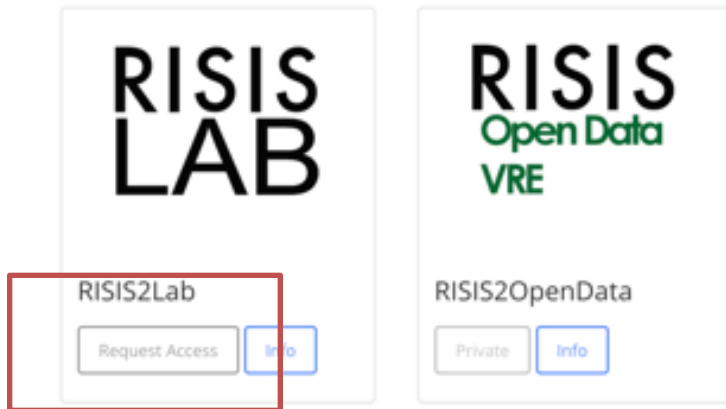

An environment for collaborative analysis and discussion of RISIS contributions to OpenAIRE and to deliver a computational environment for exploration and validation of datasets dedicated to OpenAIRE communities.

Request access (if needed)

<https://risi2.d4science.org/explore>

RISIS2 a series of services made available by the D4Science and the federation and integration of the resources provided by the RISIS2 consortium.

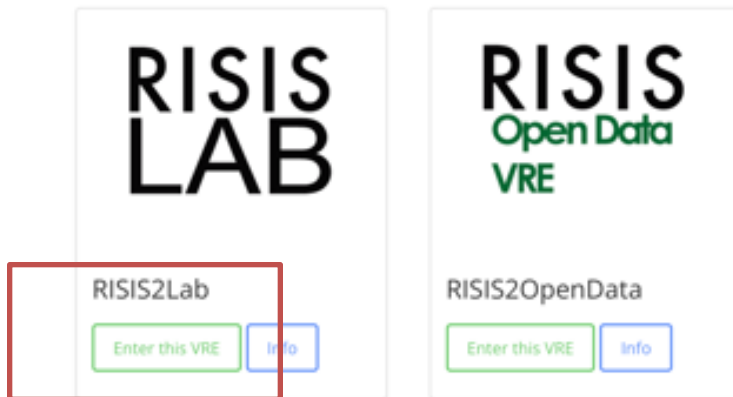

Request access, wait for the acceptance email. 10 minutes later you should be able to enter the VRE.

Get into the VRE

- Click on « Enter this VRE »
- You can also access directly to <https://risis2.d4science.org/group/risis2lab>

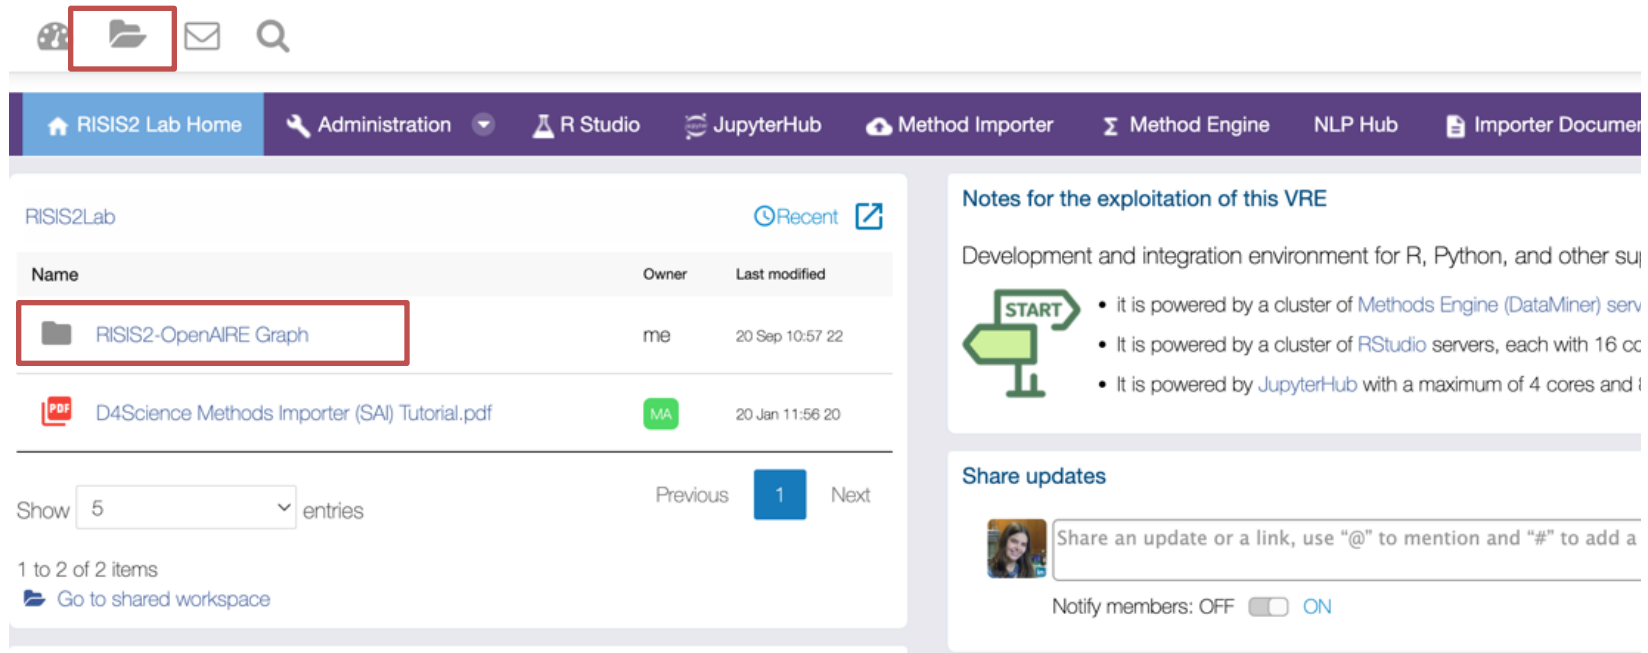

RISIS2 a series of services made available by the D4Science and the federation and integration of the resources provided by the RISIS2 consortium.

The screenshot displays two service cards side-by-side. The left card is titled 'RISIS LAB' and features a red rectangular box around the 'Enter this VRE' button. The right card is titled 'RISIS Open Data VRE' and also has an 'Enter this VRE' button. Both cards include an 'Info' button next to the 'Enter this VRE' button.

Supporting Material

- You can find everything in the VRE workspace, under the folder [RISIS2-OpenAIRE Graph](#):
 - Slides
 - Examples

Navigation icons: Home, Folder, Mail, Search

Navigation bar: RISIS2 Lab Home, Administration, R Studio, JupyterHub, Method Importer, Method Engine, NLP Hub, Importer Documenter

Agenda

12:35 – 13:00 OpenAIRE Research Graph

- Concept and data model
- The json dumps

13:00 – 14:15 Practical session

- Dataset description (selection of the subset, format)
- Dataset queries with JupyterHub

14:15 – 14:30 Final discussion

Why today?

<https://www.openaccessweek.org/>

 International
Open Access Week

Open for Climate Justice

**Відкритість для кліматичної
справедливості**

为气候正义开放

**Uwazi kwa Machapisho ya
Haki ya Tabianchi**

الانفتاح لأجل عدالة مناخية

**Ouvert pour la justice
climatique**

気候正義のためのオープンデータ

**Abierto para la justicia
climática**

OCTOBER 24-30, 2022

#OpenForClimateJustice

Who is OpenAIRE?

RISIS

A European infrastructure on open scholarly communication since 2009

Mission: Shift scholarly communication towards openness and transparency and facilitate innovative ways to communicate and monitor research.

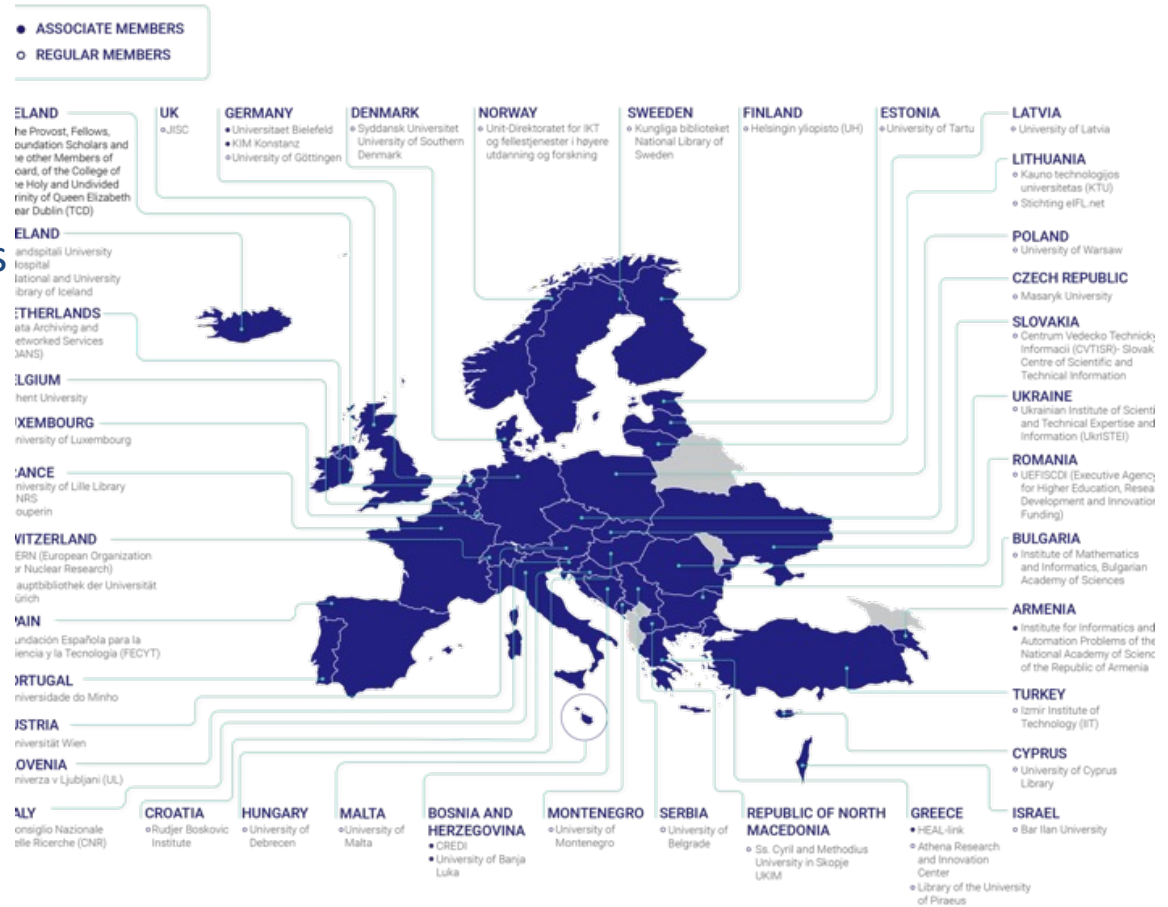

Non-profit organization

Established Oct 2018

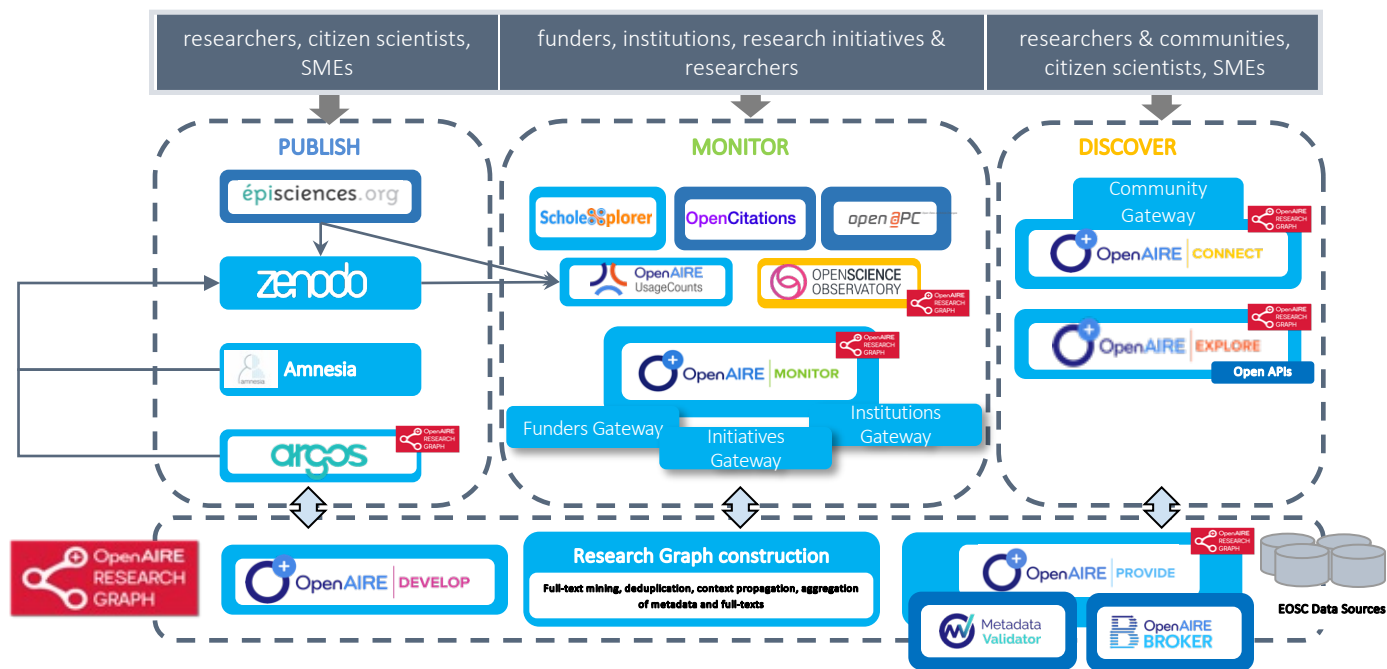

Headquarter Greece, virtual office

48 members

From 34 countries

OpenAIRE services for Open Science

The OpenAIRE Research Graph: why?

Tracking open research

Reproducibility and transparency require tracking of all outcomes of **science and related "context"**

Discovering open research

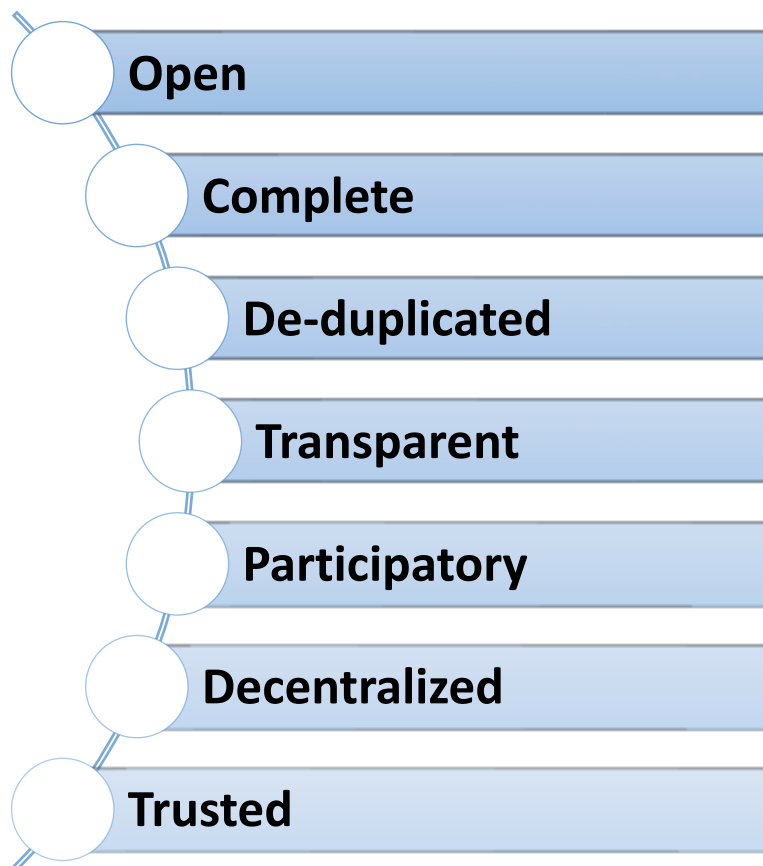

Discovery of **reproducible science** outcomes must find new ways, driven by "scientific intentions" that go beyond the "find articles related to a research topic"

Monitoring (open) research

Monitoring quality, impact, and **openness** of science should be a transparent, reproducible process for all, inclusive of research "context"

The OpenAIRE Research Graph: what?

A collection of metadata describing objects of the research lifecycle, with semantic relationships among them

<https://graph.openaire.eu>

Sources contributing to the graph

GitHub Applications Database
Software Heritage elixir
... and more **tools and software sources**

frontiers PLOS Springer
F1000
... and more **publishers**

CORDIS NSF DFG
... and more **European and International funders**

unpaywall OpenCitations Microsoft
... and more **research graphs**

OpenAIRE ResearchGraph

DataCite re3data.org ROR ORCID
Crossref OpenDOAR FAIRsharing.org OrgReg
... and more **registries**

LA Referencia SciELO DOAJ
... and more **aggregators**

arXiv.org RePEc PubMed HAL zenodo
... and more **thematic and institutional repositories**

DARIAH-EU EPOS ECRIN EOSC-Life esi
... and more **infra and RI sources**

OpenAIRE Research Graph in numbers

- 25 funders
- ~2k direct data sources
- 3Mi projects
- 144Mi publications
- 304k software
- 17Mi research data
- 6.7Mi other research products

The challenges

Heterogeneity

Standards, crosswalks, community and cross-community view

guidelines.openaire.eu

Quality and accuracy

Trust and stability of the data: researchers and operators in the loop

PROVIDE (validation, brokering), user feedback, PIDs, provenance tracking, de-duplication

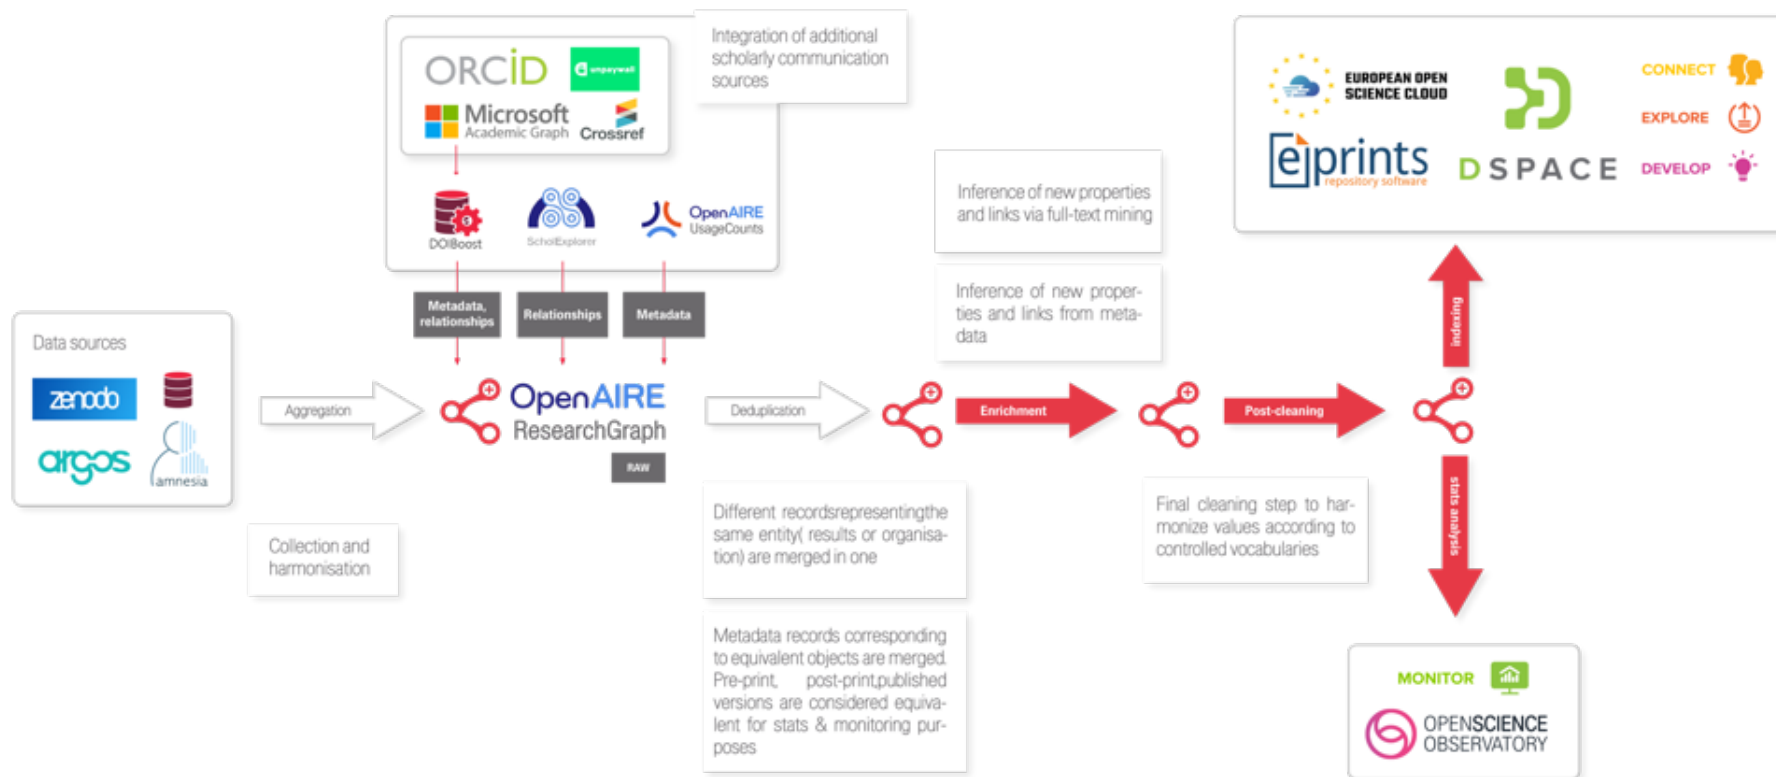

Completeness

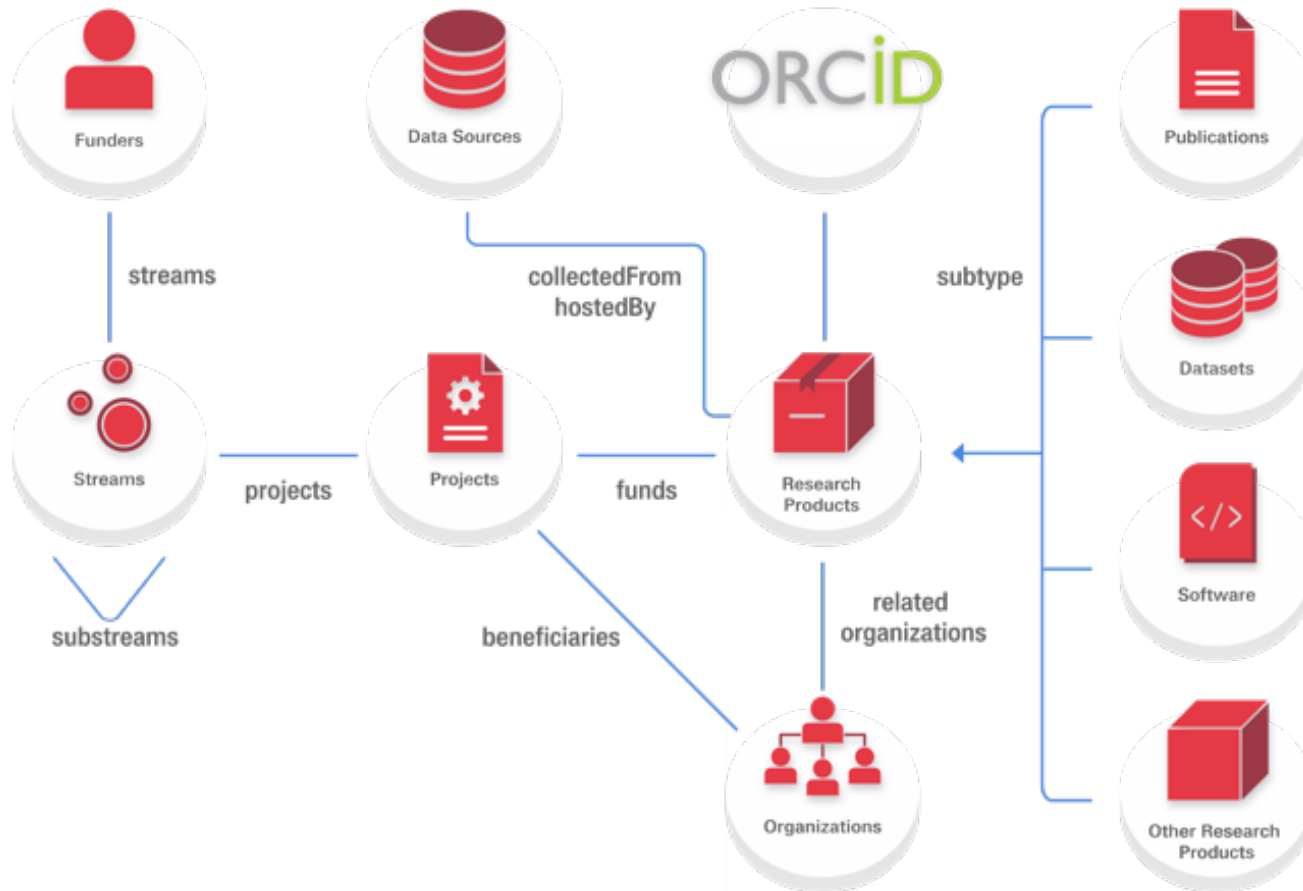

Practices, sharing of technology and data (Scientific Knowledge Graphs)

Open Science publishing workflows, RDA OSG interoperability, international network of repositories

The OpenAIRE Research Graph: how?

High level data model

Accessing the graph

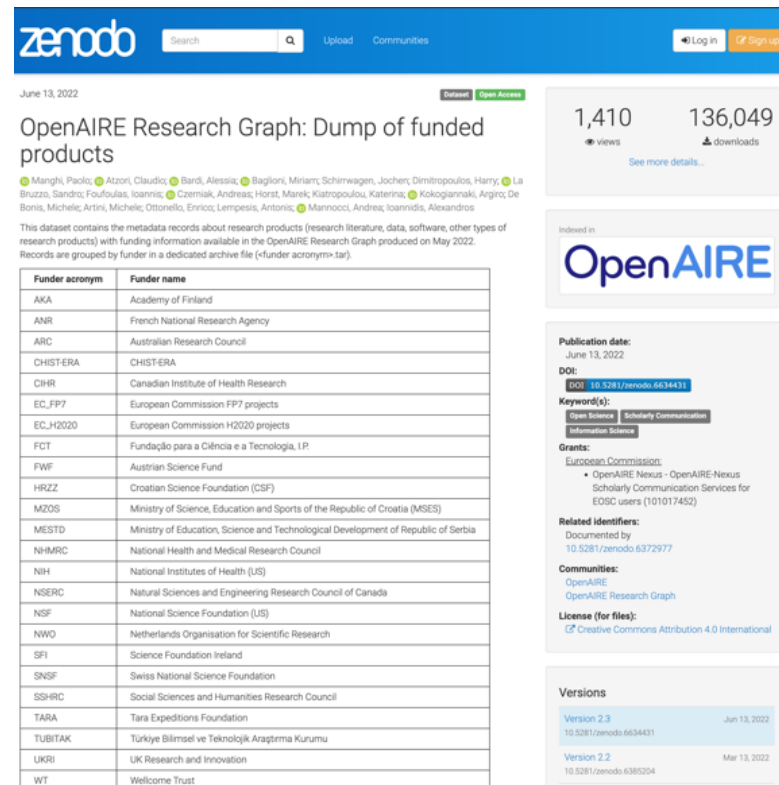

- **EXPLORE:** discovery portal of OpenAIRE
explore.openaire.eu
- **MONITOR:** monitor dashboards with indicators on Open Science
monitor.openaire.eu
- **API:** documentation at graph.openaire.eu/develop
- **Json dumps on Zenodo** (published every 6 months)
<https://graph.openaire.eu/develop/graph-dumps.html>

The dumps

Published on Zenodo every 6 months

- Complete dump
- Funded products
- Products related to research initiatives and communities
- COVID-19 related products
- Publication – dataset links in Scholix format

<https://zenodo.org/communities/openaire-research-graph>

OpenAIRE Research Graph: Dump of funded products

1,410 views 136,049 downloads See more details...

Manghi, Paolo; Alzori, Claudio; Bardi, Alessia; Baglioni, Miriam; Schirwagner, Jochen; Dimitropoulos, Harry; La Bruzzo, Sandro; Fofoulas, Ioannis; Czerniak, Andreas; Horst, Marek; Kiatropoulou, Katerina; Kokogiannaki, Angri; De Bonis, Michele; Artini, Michele; Ottonello, Enrico; Lempesis, Antonis; Mannocci, Andrea; Ioannidis, Alexandros

This dataset contains the metadata records about research products (research literature, data, software, other types of research products) with funding information available in the OpenAIRE Research Graph produced on May 2022. Records are grouped by funder in a dedicated archive file (<funder acronym>-tar).

Funder acronym	Funder name
AKA	Academy of Finland
ANR	French National Research Agency
ARC	Australian Research Council
CHIST-ERA	CHIST-ERA
CIHR	Canadian Institute of Health Research
EC_FP7	European Commission FP7 projects
EC_H2020	European Commission H2020 projects
FCT	Fundação para a Ciência e a Tecnologia, I.P.
FWF	Austrian Science Fund
HRZZ	Croatian Science Foundation (CSF)
MZOS	Ministry of Science, Education and Sports of the Republic of Croatia (MSES)
MESTD	Ministry of Education, Science and Technological Development of Republic of Serbia
NH-MRC	National Health and Medical Research Council
NIH	National Institutes of Health (US)
NSERC	Natural Sciences and Engineering Research Council of Canada
NSF	National Science Foundation (US)
NWO	Netherlands Organisation for Scientific Research
SFI	Science Foundation Ireland
SNSF	Swiss National Science Foundation
SSHRC	Social Sciences and Humanities Research Council
TARA	Tara Expeditions Foundation
TUBITAK	Türkiye Bilimsel ve Teknolojik Araştırma Kurumu
LKRI	LK Research and Innovation
WT	Welcome Trust
