The Pisa
Declaration

The poster shows the goals achieved in the last 5 years, the progress, new features and new resources made available by GreyGuide in support of Open Access Publishing. In 2015, GreyNet International carried out an online survey among its stakeholders in order to determine their use of its sustained information resources.

Now five years on, having benefited from technical developments, the migration of hundreds of metadata full-text records, and the addition of enriched fields and functionality, the GreyGuide offers GreyNet a testbed from which to map and measure its capacity in open access publishing.

The population of this study is drawn from digital resources accessible via both the GreyGuide Portal and Repository.

Scenario

GreyNet's web-access portal and repository is the GreyGuide – an internet resource that is fully open access compliant, launched in 2013 as a collaborative effort between GreyNet International and CNR-ISTI, NeMIS Lab, Pisa, Italy.

GreyGuideRep is a platform supporting document submission, curation, preservation and sharing.

Objective

Pays particular attention to Open Access Publishing .

Shares Research and Knowledge in the field of Grey Literature via the GreyGuide Portal and Repository.

Meets the needs of different levels of users and increases the visibility and reuse of documents and research data.

What's on

- **New resources** in Document Share enabling wider public access to Grey Literature;
- **DOIs** for GL-Conference Papers and diverse types of RGL documents;
- **More accredited Identifiers:** OpenDoar, DOI, ORCID, CC BY;
- **Open access to the largest Collection** of GL Conference Posters and Slides.
- **We are Joining OpenAire**

The way in which the digital resources are openly accessible
